What is Skyward Family Access?

The Beatrice Mayes Institute dedicates this site to all parents and guardians who want to be more involved with their child's education. With the Family Access web portal, you can review your child's progress with just a "point and click" from your home or office.

Parents and guardians now have access to a variety of student information, such as attendance, grades, and health information. You may also review your log-on history.

With Family Access you can be a more proactive member in your child's educational team. If you have a question or need an answer, Family Access provides links for you to email teachers. Your Family Access username and password will work for **all** children who live in your household, regardless of grade level.

We welcome you to Family Access, and hope you will find this to be an effective tool in enhancing your communication with BMI.

A. On the Student Information screen, click the link on your child's teacher to send them an email message.

Q. I can't get Family Access to work on my computer; what should I do?

A. Family Access is a web-based product, so it should work on your computer like any other web-based application, such as Internet Explorer or Firefox. First, you should check to make sure you have the right Family Access web site address or URL. You can access the Family Access web portal from the direct URL <https://skyward10.iscorp.com/scripts/wsisa.dll/WService=wsedubbeatricemayestx/seplog01>

Alternatively, you can access the Family Access web portal from the School Website. Select "For Families", Select "For Parents", Select "Skyward"

Please note that BMI does not support off-site technology or software applications. Please consult your computer dealer or software vendor for computer or software problems.

Q. Can other people see my child's personal information on Family Access?

A. Family Access is password protected. As long as you keep your password safe it is highly unlikely that anyone else will be able to access or view your child's personal information.

Q. Pop-up Blockers..what do I do when I get a message about Pop –up Blockers?

A. You may need to disable any pop-up blocker for Family Access to work correctly. Please check the help section in your web browser for information on how to do this.
